

CIRCULAR

In accordance with the advisory and appeal issued by the government of India and the state government in the context of ongoing geopolitical instabilities and conflicts and Hon'ble Prime Minister's appeal, the following are being issued for adherence in the National interest:

1. Optimization of Petroleum and Fuel Usage

Global volatility has directly impacted fuel costs and availability. To mitigate this:

- All staff and students are encouraged to utilize university transport services or public transport to reduce individual fuel consumption.
- Where pedagogical standards allow, administrative meetings and non-essential seminars should be conducted via digital platforms to minimize travel.

2. Electricity and Energy Efficiency

Energy security is a pillar of national stability during international crises. We request your cooperation in the following:

- Please ensure all lights, air conditioning units, and electronic equipment are powered down when leaving classrooms, laboratories, or offices.
- Utilize natural lighting during daylight hours and maintain climate control settings at a standard **24°C-26°C** to optimize energy efficiency.
- Laboratory equipment with high power draw should be operated during off-peak hours whenever feasible.

3. Prioritization of Indigenous Products (Self-Reliant India)

- The prioritization of indigenous products is the cornerstone of the Atmanirbhar Bharat Abhiyan (Self-Reliant India Mission). It is a strategic economic vision aimed at reducing dependence on foreign imports and strengthening the domestic manufacturing ecosystem especially during times of global geopolitical instability.
- By shifting from being a consumer of foreign goods to a producer of local ones, the nation protects its economy from international price volatility and supply chain disruptions.

4. Advisory on Gold and Precious Metal Investments

- Employees are advised to exercise prudence regarding the purchase of unnecessary gold products.
- We encourage staff to explore **Sovereign Gold Bonds (SGBs)** or digital gold options rather than physical bullion, as these contribute to the nation's formal financial strength while offering individual security.

We understand that these adjustments may require a shift in daily habits. However, our collective discipline will ensure that our institution remains a bedrock of stability and support for the nation during these challenging times.

For Manoj - 10
